Please enter details:	
39. What data collection methods were used for the module (substantive and background questions)?	
Face-to-face	X
Self-completion (with some interviewer involvement in delivering or collecting)	
'Mixed mode': part self-completion, part face-to-face (please write in details)	
Other (please write in details)	
If 'mixed mode' or other, please write in:	\neg

Yes - postal	$X \rightarrow Question 41$
Yes - telephone	$X \rightarrow Question 41$
No	→Question 42
41. Please give details of the postal and/or telephone components.	
 Please enter details: POSTAL: All respondents received postcards before the interview to inform them the survey and coming interview. TELEPHONE: Telephone contacts were conducted in three phases of the intervioral. 30% of the respondents were back-checked by supervisors, 20% of those checked in Phase 1 were rechecked by senior supervisors, 85% of all respondents were contacted to help clarify various issues. 	iew:
42. Were incentives offered?	
Yes No	X
43. How was the study fielded in your country?	
As an <u>individual</u> survey (that is, the EASS was the whole survey)	→Question 46
As part of a <u>larger</u> survey	$X \rightarrow Question 44$
44. Please provide information about the other stud(ies) the EASS was fielded with (e.g.	g., topic, survey name).
Please enter:	
Taiwan Social Change Survey, the Second Phase of the Fifth Wave. Other topics in the TSCS survey: Class identification and Cultural values.	
45. What was the approximate position of the EASS in the larger questionnaire?	
Start of questionnaire	
Middle of questionnaire	X
End of questionnaire	

40. Were postal or telephone components used at any point (e.g., advance contacts)?

46. Were the substantive questions in the EASS study all asked in the prescribed order?	
$Yes \ X \rightarrow Ques$	stion 48
Yes, apart from omissions	stion 47
No	stion 47
47. Why was the question order changed?	
Please enter:	
48. Were all the <u>core</u> questions included in your questionnaire (by core we mean all required substantive and background questions)?	
Yes – all substantive questions and background questions <u>included</u> $X \rightarrow Questions$	stion 50
No – substantive question(s) $\underline{\text{missing}}$ \longrightarrow Ques	stion 49
No – required background question(s) <u>missing</u> →Ques	stion 49
49. Please provide details of the questions missing and indicate why they are missing.	
Recease(a) why missings	
Reason(s) why missing:	
Here we ask questions on sampling. 50. First, was your sample designed to be representative of	
Only adult citizens of your country? X	
Adults of any nationality residing in your country?	

Only adults living in private	e accommodation? $X -$	Question 52
Adults living in private and in institutiona (e.g., residential homes for the elderly, asylum		
If private and institutional, please enter details in box below.		
Please enter in:		
52. Third, what was the <u>lower</u> age cut-off for your sample?		_
	WRITE IN: 1 8	
53. Was there any <u>upper</u> age cut-off for your sample?		
Yes - plea	ase write in cut-off	
	No cut-off X	
54. Were any groups excluded or under-represented in your sam from the age cut-offs or citizenship requirements just asked abo		
	No X	
Yes (pleas	se write in details)	
	, L	
If yes, write in details:		
55. Did you use any variables for stratification?	Yes X	→Question 55 (56?)
	ies A	→Question 55 (50:)
	No No	→Question 56 (57?)
56. Please describe the stratification variables used?		
Please write in:		
The following variables are used to stratify the population	frame into seven	
levels of regions: Population density, educational backgroupopulation over age of 65, the proportion of population bet	and, the proportion of	
the proportion of industrial employment as the total employ	yment, and the	
proportion of service sector employment as the total emplo	yment.	

51. Second, was your sample designed to be representative of ...

57.]	How many of stages does your sampling design have?	
	One stage	
	Two stages	
	Three stages	X
	Four stages	
58. l	Does your sampling frame consist of?	
	Addresses	
	Households	
	Named individuals (the target persons)	X
	Named individuals (<u>not</u> the target persons)	
	Areas	
	Something else (please write in details)	
	Please describe your sampling frame (e.g., population register, electoral roll, teleph and updating). Please write in: Official population registration records	
60.]	Please describe your sampling method and your sampled units for the first stage?	
	Please write in:	
	Deciding the number of respondents to be interviewed in proportion to the size of each of the seven levels of regions (as described in question #56).	
	Please describe your sampling method and your sampled units for the second stage only if you have two or more stages, otherwise continue with question 64)	e?
	Please write in:	
	For the second stage of the sampling, the number of townships is decided for ea level of regions and is randomly selected from each level. Two districts or villag then are randomly selected from each chosen township.	

62. Please describe your sampling method and your sampled units for the third stage?

(only if you have three or more stages, otherwise continue with question 64)	
Please write in:	
For the third stage about 20 to 25 individuals are randomly selected from the selected districts or villages from the second phase.	
Please describe your sampling method and your sampled units for the fourth stag (only if you have four stages, otherwise continue with question 64)	re?
Please write in:	
ricase withe m.	
What selection method was used to identify a respondent?	
Please tick all that apply. (do not answer if your sampling frame consists of name	d individuals
- which are the target persons. Then continue with question 66)	
Kish grid	
Last (or next) birthday	r
Quota	
Other (please write in details)	
	<u> </u>
The respondent is randomly selected from the target districts or villeges.	
Please describe your quota procedures. (only if you used quota, otherwise continu	e with question 66)
Please write in:	
Was substitution or replacement permitted at any stage of your selection process or during fieldwork?	6
Yes	→Question
No	\rightarrow X \rightarrow Question

- selected respondent had inadequate understanding of language of survey - no contact at selected address - no contact with selected person - personal refusal at selected address - proxy refusal (on behalf of selected respondent) - other refusal at selected address - other type of unproductive reaction (please write in full details in the box below) - full productive interview (net sample size) - partial productive interview	For example: is there differential coverage of particular groups, either because of sample design or response differences? Please write in: Some of the target respondents do not live in the household of their registered address.	Please write in:			
For example: is there differential coverage of particular groups, either because of sample design or response differences? Please write in: Some of the target respondents do not live in the household of their registered address. Please fill in the following details about your issued sample. Some categories may well not apply, but please complete to the highest level of detail possible. Total number of starting or issued names/addresses (gross sample size) 5	For example: is there differential coverage of particular groups, either because of sample design or response differences? Please write in: Some of the target respondents do not live in the household of their registered address.

67. Please provide details of the substitution or replacement procedures used.

	Here we ask for information about interviewer procedures. Were interviewers paid according to realized cases?						
u.	Yes						
	No	X					
b.	Which, if any, of these rules governed how an interviewer approached an address/household?						
	PLEASE TICK THOSE THAT APPLY Calls/visits must be made at different times of day	X]				
	·]]				
	Calls/visits must be made on different days of week	A]				
	Neither of the above						
c.	Were interviewers <u>required</u> to make a certain number of calls/ visits before they stopped approaching an address or household?						
	Minimum number of calls/visits required - please write in number		3]			
	No minimum call requirement						
d.	Were any interviews supervised (that is, supervisor accompanies interviewer)?						
	Yes - please write in approximate proportion	3	3] '	%		
	No						
e.	Were any interviews back-checked (e.g. supervisor checks later whether interview	cond	luct	ed)?			
	Yes - please write in approximate proportion		30	1	%		
	No]	1			
			I				
71.	Please write in the approximate start and end dates of fieldwork.	D	D	M	M	,	YY
	Start date	1	6	0	7	0	6
	End date	1	6	0	8	0	6
72.	Were any measures of coding reliability employed? Yes	X]				
	No		,]				
			I				
73.	Was keying of the data verified?						
	Yes - please write in approximate level of verification	1	0	0	%	,	
	No]		ı		
			1				

74. Were any reliability checks made on derived variables (that is variables constructed on the basis of other variables collected)?	
Yes	X
No	
No derived variables	
75. Were data checked/edited to ensure that filter instructions were followed correctly?	
Yes	X
No	
76. Were data checked/edited for logic or consistency?	
Yes	X
No	
77. Were data checked/edited to ensure they fell within permitted ranges?	
Yes	X
No	
If you answered YES for <u>any</u> question from Q72 to Q77, continue with	
If you answered NO for <u>all</u> questions Q72 to Q77, continue with Qu	testion 79.
78. Were errors corrected? Please tick all that apply.	
Yes - individually	X
Yes - automatically	
No - not corrected	
79. Were the data weighted or post-stratified?	
Yes	→ Question 80
No	$X \longrightarrow Question 81$
80. Please briefly describe the weighting or post-stratification strategy used.	
Please write in:	

Please write in:	
2. If there is anything you would like to commer	nt on, please do so here.
	No
	Yes
